

Product Description

Product Description:

The Arches bench without back has a crisp and clean modern look that benefits any outdoor landscape. Our Arches series is the ideal solution for any commercial facility from schools, hospitals, resorts, and more. The horizontal steel slats are supported with the powder coated 3" square tubing legs and arms for years of use. This commercial-grade bench is offered in a 6' length with the option of surface or in-ground mounting. Contact us today for your custom quote.
